# ABOUT SBT

**SB Technologies (SBT)**, established in 2016 is an ISO 9001:2015 Certified Training Center located at Malad, Mumbai providing Technical Training in Chemical Engineering discipline to meet the requirements of skilled manpower in the field of Petrochemical, Oil & Gas and various Process Chemical plants.

- Chemical Process plants such as Petrochemical, Refineries and Pharmaceuticals are very complex plants in terms of Equipment, Pipeline, Instrumentation, Electrical, Control and Power systems. Team of **Process Engineers** play major roles to make Safe, Economical and Well functional design.
- Process Design Engineering course provided by SB Technologies improves the skills of candidates through its training on fundamental principles of Engineering and Technical concepts which are used in **Process Design & Chemical Plant Design**.
- Faculty members are the Experienced, Leading professionals from top relevant organisations. Syllabus covered in this training is exactly as per the Global Standard as well as latest working requirements of various engineering companies.
- SBT provides training program according to current job requirements of Technical manpower in Process Design Engineering.

## **COURSE ELIGIBILITY:**

- BE / BTech in Chemical / Petrochemical Engineering
- ME / MTech in Chemical / Petrochemical Engineering
- Engineers working in Production and other field
- Last year Students in Chemical / Petrochemical Engineering
- Diploma in Chemical / Petrochemical Engineering

# ABOUT COURSE

## **Our Vision:**

**“To Provide Quality and Excellence in Process Design Engineering”**

## **Our Mission:**

**“To Provide Skillful Individual Professionals who can offer Innovative Value added Services for Industries through their Brilliance”**

# ABOUT COURSE

**SBT Candidates are working in following companies and many more:**

# DIRECTOR & FOUNDER

**Prof. Pravin Rade** has a Bachelors degree in Chemical Engineering as well as Post Graduation in Process Design Engineering. He has more than **16 years** experience in handling Oil & Gas, Various Chemicals, Petrochemicals, Refineries, Pharmaceuticals, Food industries, Special Care Chemicals Projects and Training Domain.

He has Trained more than 2000 + candidates from India as well as Foreign Countries :

India

United States

South Africa

UAE

Germany

Saudi Arabia

Bahrain

Singapore

Bangladesh

Sharjah

Ajman

Abu Dhabi

Qatar

# COURSE SYLLABUS

- 1. Overview of Industry and Role of Process Engineer in various field**
- 2. Basic Design requirements based on Types of Projects**
- 3. Basic Engineering & Detailed Engineering Package**
- 4. Process Design Basis and its significance**
- 5. Basics of Chemical Engineering required for Process Engineering Definitions, Unit Conversions, Equations, Laws etc.**
- 6. Introduction to BFD, PFD, UFD and P&ID**
- 7. Types of Valves and Applications**
- 8. Relevant Codes & standards used in Chemical Process industry API, ASME, IS, TEMA, IBR, GPSA, ANSI etc**
- 9. Statutory Requirements for Chemical Plants**
- 10. Preparation of Piping Line List and Technical concepts**
- 11. Line Sizing for Liquid, Steam and Compressible Fluid  
Line Sizing, Pressure Drop calculation and Hydraulics, Line Sizing by hand calculations & on Advance Excel sheets**
- 12. Control Valves (Pneumatic Valves) Calculation, Sizing & Datasheets**
- 13. Pump Calculations, Sizing & Datasheets**
- 14. Storage Tanks Classification, Calculation & Datasheets**
- 15. Heat Exchangers Design as per TEMA with HTRI software**

# COURSE SYLLABUS

16. **Air Moisture Separator Calculations as per GPSA**
17. **Breather valves (Pressure Vacuum Relief Valve) calculations as per API 2000 and Process Datasheets**
18. **Pressure Safety Valves (PSV & PRV) & Rupture Disk (RD) Calculations & Datasheets as per API 520 Part I & Part II and API 521**
19. **Instrument Process Datasheets: Flow, Level, Pressure and Temperature Instruments**
20. **Cooling Tower Calculations & Data Sheets**
21. **Distillation Column Design**
22. **Steam Ejector, Flame Arrestor, Static Mixer**
23. **De-Superheater and Mass-Enthalpy balance calculations**
24. **Special Piping Material Datasheets Items: Filters, Strainers, Steam Traps, Sight Glass and Flexible Hoses**
25. **Types of Plant Utilities in Chemical Industry**
26. **Preparation of Utility Summary List and Adequacy Check Report**
27. **Hazardous Area Classification (HAC)**
28. **Other available Software used in Chemical industry and their Application**
29. **How to prepare impressive Curriculum Vitae (CV)**
30. **Technical and HR interview preparation**
31. **Technical Writing and Presentation skill Training**
32. **Technical Quiz and Mock Interview**
